## Housing Opportunities Sub-Committee

### *Housing Education*

This committee's focus is on education in the community, adults, high schools and employers through programs and events. Below is a more in depth look at the inner workings of the sub committee.

#### **"From High School to Home Ownership" The Four Key Financial Steps**

This program is designed to help high school students take a critical look at their future financial responsibilities and the process of purchasing or renting a home. Students learn how their behavior with money and credit in their teen years can have long-term consequences regarding their ability to rent or buy a home in the future.

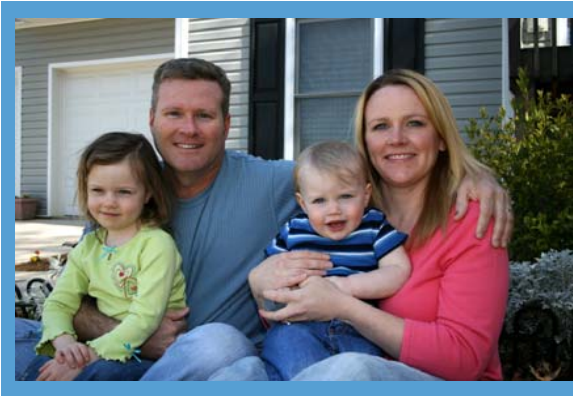

#### **Home Ownership Fairs**

Several community home ownership fairs are held through out the year. They feature REALTOR and lender presentations, one-on-one interaction and sessions on improving credit, current lending options, new first time starter homes, buying, tax credits and much more.

#### **Employer Assisted Housing**

Focuses on two main goals: setting up employer-assisted housing programs throughout Tucson and providing homeownership seminars for potential homebuyers.

**Chair:** Pam Ruggeroli

## The Housing Opportunities Committee

Housing opportunities are a moral and practical necessity in Southern Arizona, and REALTORS® are dedicated to increasing homeownership in our community. Providing access to resources for affordable housing, ensuring REALTOR® advocacy for fair housing, attending to the needs of those who require housing and preparing members of our community for homeownership are important goals of the Association.
