

LUNCH & LEARN

Presented by the TAR Green Committee

WATERSHED MANAGEMENT

Tuesday, February 6, 2017 • 11:30am-1:00pm
137 N Dodge Blvd • Tucson, AZ 85716

REALTORS® are invited to a Lunch & Learn at Watershed Management to explore sustainability practices in action through interactive exhibits and demonstrations in the heart of Tucson. Please RSVP! Seating is limited to the first 20 REALTORS®.

As the headquarters of WMG, the Living Lab also houses the staff working on programs that span Tucson, Southwest and Mexico. Learn how they “walk the talk” each day as the 2016 winner of Arizona's Greenest Workplace challenge.

Many of the features found in the living lab can be integrated into any home in Tucson, increasing the home's value and marketability. Ask the experts at WMG how to market these features in your listing and how to encourage your clients to add some of these features to their homes.

Presentation by:

Lunch is provided!

Catlow Shipek

Policy and Technical Director, Watershed Management Group

Catlow Shipek is a founding member of Watershed Management Group. He received a MSc in Watershed Management from the University of Arizona. Catlow has over ten years of experience in applied watershed management, planning and policy specializing in urban applications like water harvesting, green infrastructure, stream restoration, and eco-sanitation. Catlow has worked on several successful local policy initiatives including Tucson's residential greywater ordinance revision process, Tucson's Green Streets Active Practice Guidelines, and Tucson Water's residential rainwater rebate program. Catlow serves on the Citizens' Water Advisory Committee for Tucson Water including the Finance and Conservation & Education subcommittees and on the University of Arizona's School of Natural Resource and the Environment advisory board.
