lenders 

Because of their sponsorship, there is no increased cost above our normal lunch prices.

Guest Speaker

Barry Habib

Barry Habib is the CEO of the Mortgage Market GuideSM service, which helps over 19,000 of America's best originators monitor market conditions, improve their production, better manage their pipeline, and strengthen their position as a Mortgage Planner.

Mr. Habib has over 20 years experience in the mortgage industry. Barry has consistently been recognized as one of America's Top Loan Originators. He has averaged nearly \$100 million dollars per year in individual production during his 20 years in the industry and is one of very few originators who have produced over \$2 billion in individual production over his career. Barry has achieved these levels with only one assistant and by referral only.

In addition to his mortgage experience, Barry has successfully managed a hedge fund, authored a stock advisory newsletter, owned an insurance agency, and acted as managing partner in a real estate investment company. Barry's broad range of expertise in these varied areas of financial industries gives him a unique perspective, which he will share with you.

Because of Barry's diverse areas of expertise, he is often featured on CNBC, NBC, CNN and FOX television networks. Barry has been the keynote speaker for 50 different state Mortgage Banking Associations.
