June 2005 Residential Home Sales

"The growth in the housing market continued in the month of June. The total units sold in June increased 10.6% over the month of May and 8% year over year. Additionally, the average number of days that a property is on the market has decreased from 47 days in June 2004 to 28 days in June 2005. What does that mean for the prospective buyer? When prospective buyers choose to enter the market and look for a property, they must be clear on how much they can afford to spend on a property and they must be prepared to make an offer immediately when the appropriate property is identified."

-Judy Lowe, President of the Tucson Association of REALTORS® Multiple Listing Service, Inc.
