

# Did you know that you can choose the Closing Agent for your transactions?

Most Real Estate Agents and lenders don't know they can choose the Closing Agent for their transactions! Everyone wants their deals to go through perfectly so they can have happy client's; which turns into repeat business. While you work so hard to build up your team from the Loan Officer, Escrow Officer, Appraiser and Inspector why would you not want the final step to be handled with the same care?

The last step in every Real Estate transaction is to have your client go to closing to sign the documents. I am a trained, bonded, insured and Certified Notary Signing Agent. What that means, and how I can bring value to your team, is that I'm not just a Mobile Notary, I am educated in the Real Estate documents.

My goal is to make your client feel comfortable and knowledgeable as I guide them through all the loan documents and get them back to title in a timely manner. I will provide you with error free closing with no funding issues. I strive daily to be an extension of you by representing you with integrity and professionalism. I specialize in Buyers, Sellers and Refinances. I have closed over 1900 Real Estate transactions and love what I do.
